Continuation of Substance of Interview including description of the general nature of what was discussed:

The examiner discussed minor substantive changes in independent claims 1 and 52 with the applicant's attorney so as to more clearly define the claimed invention over the prior art. In addition, the examiner and the applicant's attorney also discussed a minor antecedent basis revision to dependent claim 53 so as to render the limitations recited in this claim consistent with the newly added limitations of base claim 52. After consulting with his client, the applicant's attorney agreed to all of the changes proposed by the examiner to place the claims in a condition for allowance. The specific changes are documented in the attached Examiner's Amendment.
